

**REMARKS**

The independent claims have been amended in order to obviate a section 101 rejection that the examiner has been making in other applications of the same patent family. These amendments do not change the basic limitations of the claims and will not require a separate search.

The claims were rejected under 35 USC 103 under Salvo et al. in view of Shavit et al. This rejection is respectfully traversed for the reasons set forth previously.

Applicants wish to specifically traverse the examiner's statements regarding multiple features of the claimed invention being an "obvious design choice" and hereby request the examiner to supply prior art references to support his assertions that these features are obvious design choices well known to one of ordinary skill in the art. See MPEP 2144.03

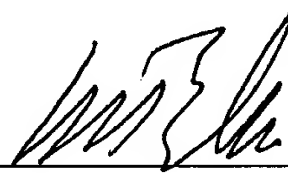

In view of the foregoing amendments and remarks reconsideration of the present rejection is requested and an early passage to issue of the case is solicited.

The Commissioner is hereby authorized to charge any additional fees which may be required regarding this application under 37 C.F.R. §§ 1.16-1.17, or credit any overpayment, to Deposit Account No. 19-0741. Should no proper payment be enclosed herewith, as by a check being in the wrong amount, unsigned, post-dated, otherwise improper or informal or even entirely missing, the Commissioner is authorized to charge the unpaid amount to Deposit Account No. 19-0741. If any extensions of time are needed for timely acceptance of papers submitted herewith, Applicant hereby petitions for such extension under 37 C.F.R. §1.136 and authorizes payment of any such extensions fees to Deposit Account No. 19-0741.

Respectfully submitted,
